

What is it Coolifting?

It is a revolutionary registered system that allows performing a shocking facial treatment through a safe, fast and efficient method.

How does it work?

The Coolifting gun projects on the facial tissues a powerful CO2 flow, at a very low temperature and a very high pressure, combined with a high concentration of atomized actives.

How many sessions do I need?

Coolifting, in a single 5 minutes session will provide your skin the appearance it had 10 years ago. The interval between future sessions will be personally advised by the specialist.

What will I feel during and after the session?

The procedure is painless. Actives application pressure and temperature are technically controlled and their perception doesn't entail any discomfort. No special care is required after the session.
